## Appliances Allowed in Central Areas

## Appliances Allowed in Department Work Areas

## Appliances in Central Areas

### Comments

At So Cal Gas we have various types of company facilities from a office headquarters facility, Call Centers, District Base Facility and Payment Centers. Being that we have various types of appliances that can be found at these locations.

Ice maker, refrigerator, filtered water

Toasters and toasters oven are supplied by the occupants with Facilities approval

Upon refresh or new but afterwards it's the departments responsibility

We provide Coffee maker, microwave, and refrigerators. BU self purchases anything additional.

## Appliances in Department Areas

### Comments

Coffee makers and microwaves are there but not supposed to be.

each operation building does have a stove and a oven....

n/a

No appliances are allowed in workspaces. Have to be in a break room, café, or cafeteria.

none

Our control centers / duty scheduling centers have stoves. All other break areas have micro waves and toaster ovens.

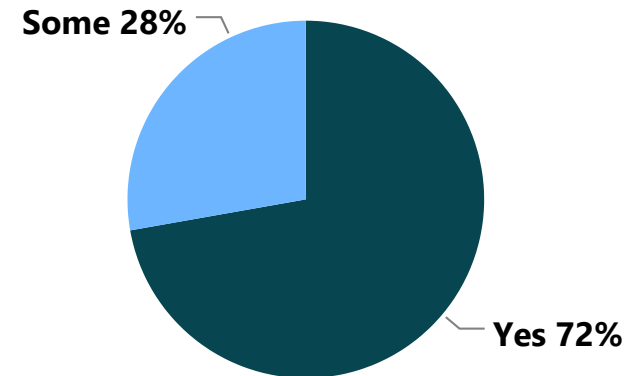

Small appliances are not allowed within workspaces unless there is an approved exception (per procedure)

small personnel Fans only and radios

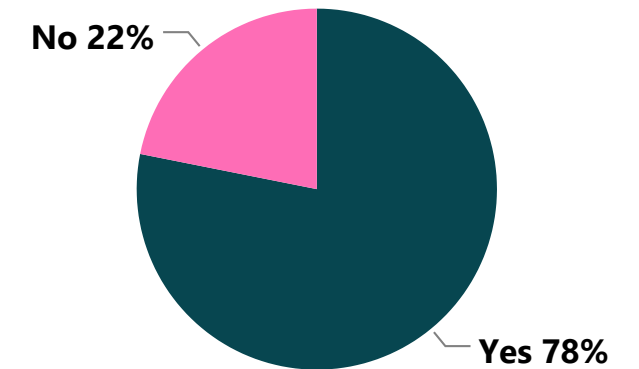

No holiday decorations

We do not allow appliances in workspaces. USB powered personal fans only.

## Company Provides Appliances in Break Areas

## Company Has Policy on Appliances

## Policy on Appliances

### Comments

As for space heaters So Cal Gas has a policy of zero regarding these appliances. Of course you have employees that will try to bring one from home and if found they are removed. Desk fans are allowed as long as they are battery operated.

More of a guideline then a policy but we can share what we have.

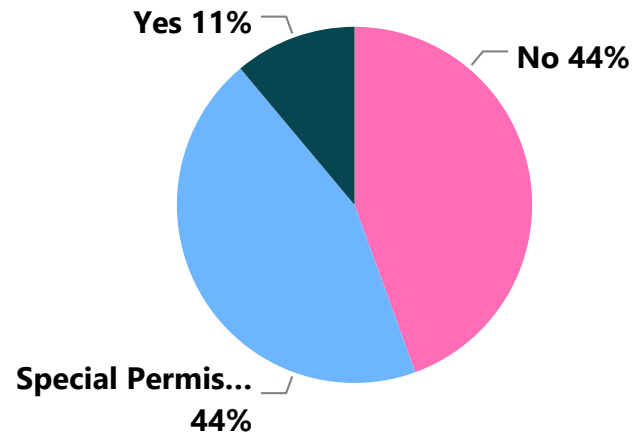

Our policy is incorporated into our Fire Prevention Plan. Can

They are not allowed.

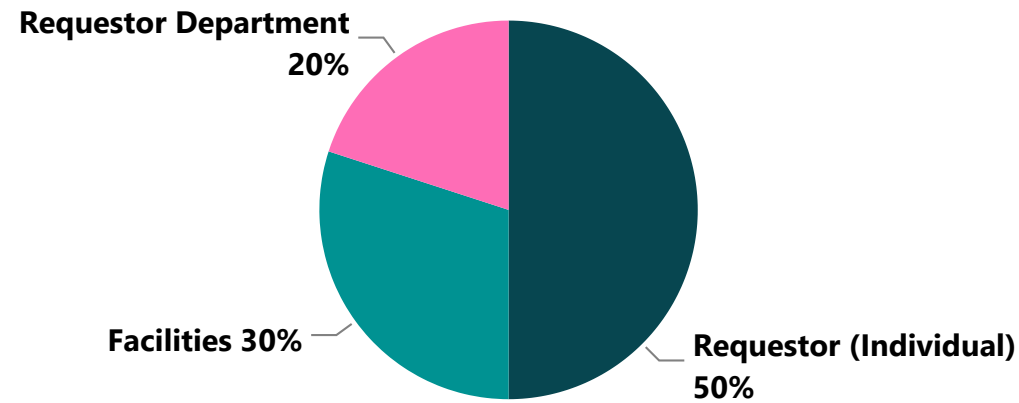

Unwritten policy

We have a policy against dorm fridges and personal coffee makers but it is not enforced in the small towns or office with 10 or less people.

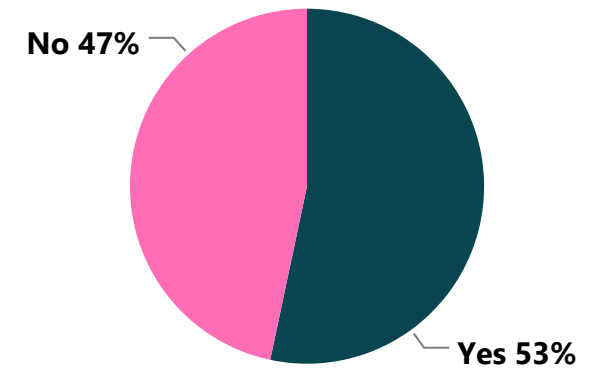

### Space Heaters Allowed?

### Space Heater Purchased By:

### Space Heater Standard?

#### Comments

Zero clearance heater. Cozy-Legs where State Fire Marshall has approved the use of zero clearance heaters.

We will hard wire a baseboard heater if medical condition warrants

We only allow them if we cannot maintain the temperature

We do not allow anything with a heating element in the workplace.

UL Listed only

So Cal Gas does not allow individual space heaters at any location.

Low amperage radiant panels only

Less than 1400 watts, tip over protection, UL listed

heater turns off if tipped over
