Allowed Uses of Room

Use is subject to the [terms of use.](#)

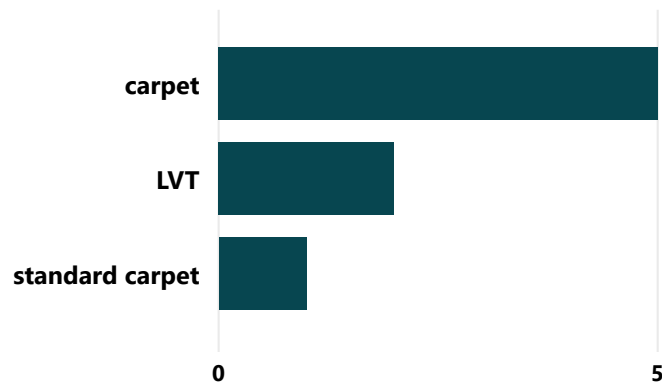

Room Design

Comments

- Wellness Rooms - non reservable, Nursing Mothers Rooms - reservable through online system
- We have rooms that can be used by individuals. It is up to the individual to request the room and then schedule it for use. Individuals work out this time with their management
- We have quiet rooms built in to part of the women's restrooms
- We have "stretching rooms" in our general office locations that can also be used for other things like quiet or meditation.
- under consideration
- The "other" activities: self-administration of medication, lactation/pumping
- Quiet room recently added within the past month. Separate Yoga room established 1 year ago
- not formalized
- Depends on the number of rooms in the facility. 1 room = reservable; 2 rooms = 1 reservable and 1 first come; 3 or more rooms = 30% of rooms reservable
